

P.O.W

October 23, 2013

It is 10:10 am. Johnny has a hockey game at 4:25pm. How long does Johnny have to wait before his game? How do you know?

1. Show all your work.
2. There must be a written component to the problem using full sentences.
3. Be sure to include all your strategies to solve the problem.

Extension:

Johnny's game lasts for 2 hours. After the game he has dinner for 45 minutes, has a shower for 15 minutes, watches TV for 1 hour, gets ready for bed for 15 minutes, reads a book for 30 minutes. What time does he turn off his light and go to sleep?
